CHALLENGES

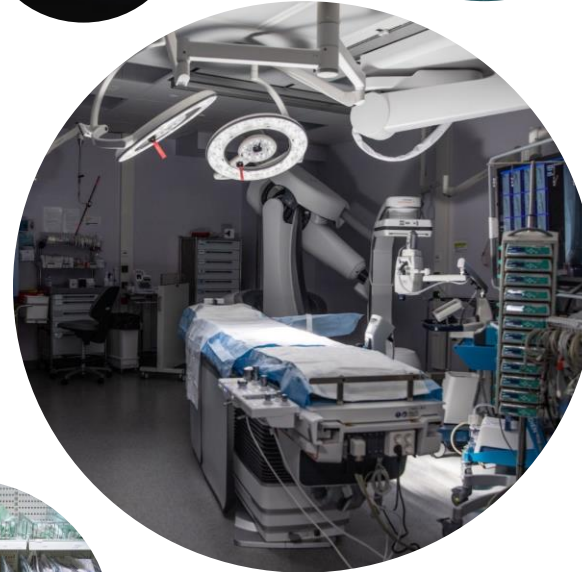

what we have in Finland

- Shortage of healthcare professionals
- Salary is not competitive
- Working conditions due to shortage of nurses

Some solutions or challenges?

- Recruitment of nurses from abroad
- Training practical nurses to work in operating department / recovery room
- Nurse Agency Services

Because the nursing shortage is real, the issue has been raised.

SOME POSITIVE what FORNA has done

Evidence-based guidelines to

- Preventing surgical smoke
- Prevention of Retained Surgical Items (RSI) Events
